

Members of the Senate Energy and Technology Committee, Senator Peter MacGregor and Representative Rob VerHeulen,

As a ratepayer to both Consumers Energy (electric) and DTE (natural gas) I strongly oppose SB 438 S-3. This bill strongly favors the utility monopoly we have in the state of Michigan. It allows the utility companies to continue their profiteering at the expense of the ratepayers and favors the bottom line of the utility companies and their shareholders.

These are multi-billion dollar corporations with CEO's and executive staff who make millions of dollars annually. This bill takes from the poor to pay the rich. It makes stealing from the less fortunate legal under the pretense of "fairness."

I have attached a letter I am putting in the mail to each and every one of you to express my strong disapproval of any Senator or Representative who votes for this bill.

Please feel free to contact me directly if you would like to further discuss my opposition or if you would like to know more about my solar electric system and the motivations I had for putting it in.

Sincerely,

Mary T McGraw
